Advancing Societally Relevant Applications of Knowledge through Scientific Research

The *Proceedings of the Fourth National Research Conclave 2025 (RC 2025)*, titled "**Advancing Societally Relevant Applications of Knowledge through Scientific Research**," brings together cutting-edge innovations and transformative ideas from diverse domains of science, engineering, and technology. Organized by PSG College of Technology, Coimbatore, India, on May 15–16, 2025, this volume highlights research that addresses real-world challenges and contributes to sustainable societal development. The proceedings showcase interdisciplinary collaborations, emerging technologies, and student-led innovations that translate fundamental knowledge into practical solutions. From advanced materials and nanotechnology to environmental sustainability, healthcare, and digital transformation, RC 2025 emphasizes the role of research as a catalyst for societal progress. This collection serves as a valuable reference for researchers dedicated to harnessing scientific inquiry for meaningful impact.
